

# PPDM Association Professional Volunteer Opportunity

## Data Objects Steering Committee

**Submit Resume to:** [info@ppdm.org](mailto:info@ppdm.org)

### Job Overview

Volunteer members within IPDS and part of the Data Objects Steering committee will collaborate with the Reference Values Work Group and the Data Rules Committee. Areas of knowledge are needed from many technical and business domains. The main function of the volunteers in the steering committee will be to define data objects leveraging existing PPDM Standards and coordinate data objects publication.

### Responsibilities

You will collaborate with PPDM team and committees to advance the Data Objects web portal for efficient usage, clarification, and functionality for industry.

Key responsibilities include:

- Leverage PPDM Association Technical Standards, such as What is a Completion
- Contribute to the design and functionality of the web portal
- Contribute to and define data objects and sub objects as described in this [video](#).
- Represent and present the PPDM Association and its programs to the highest standards.

### Attitudes and Attributes

You should possess good business knowledge and analytical skills that include attention to detail, critical thinking, creativity, data analysis, and research. You should have a demonstrated ability to navigate complex concepts and work with working group members and other subject matter experts to define simple solutions.

- Experience and ease in working with remote teams.
- Flexibility in your hours to attend the steering committee meetings
- Estimated time of 2- 8 hours per week.

### Qualifications

- Petroleum industry and/or Petroleum Data Management experience is necessary.
- Data management skills and experience are necessary.
- Students may be admitted, provided they are willing to engage in research and documentation.

### What you can expect

This position will give you an excellent exposure in the field of petroleum data management while allowing you to work with some of industry's best data professionals.

### PPDM Association Overview

The Professional Petroleum Data Management (PPDM) Association is the global, not-for-profit society within the petroleum industry that provides leadership for the professionalization of petroleum data management through the development and dissemination of best practices and standards, education programs, certification programs and professional development opportunities. The Professional Petroleum Data Management (PPDM) represents and supports the needs of operating companies,

regulators, software vendors, data vendors, consulting companies and data management professionals around the globe.

The Professional Petroleum Data Management (PPDM) Association operates in Calgary, Alberta, Canada. Learn more about PPDM on our website – [www.ppdm.org](http://www.ppdm.org).
