

Why Attend PPDM Events?

Keeping the energy data community together and strong is an essential part of the PPDM Association's mandate. An integral element of this mandate is the PPDM Association's annual global events, including our two-day Expo, traditional two-day Symposia, one-day Workshops and short Luncheons and virtual events. These events are specifically designed to facilitate collaboration, build community, promote knowledge sharing and promote energy data as a career destination.

PPDM events are designed to be affordable for all members of the energy data community while covering event costs. Our events are an excellent opportunity for individuals in the energy data industry, from Data Analysts to CEOs, to find out what is new in the industry, share experiences and knowledge, and network with peers and colleagues. Our events are more than just updates to our data model, but an opportunity to be a part of the growing energy data community and keep up to date with the latest and greatest in industry.
